## *THE CITY OF MORTON WELCOMES YOU!*

### **Where in the Woods is Morton---**

Nestled in a lush valley between Mt. Rainier and Mt. St. Helens, Morton offers the best in rural lifestyle. Whether a visitor or resident, limitless recreational opportunities are at your doorstep. As the hub of East Lewis County served by Highways 7, 508 and National Scenic Byway, US 12, Morton boasts a fine school system enhanced by Centralia College East, a state-of-the-art hospital with 24 hour staffed emergency room, financial institutions, friendly businesses and evidence everywhere of the vibrancy of the community.

Nearby are lakes and forests offering fishing, hiking, hunting, skiing, boating, wildlife viewing and communing with nature. Camping sites abound throughout the region as well as in Morton's Gust Backstrom Park on the bank of the Tilton River. Hang gliding from Dog Mountain and the Morton Airport brings pilots and spectators to experience soaring over the valley. Nearby is the Paradise entrance to Mt. Rainier National Park, Windy Ridge at Mt St Helens, Northwest Trek Wildlife Park, DeGoede Bulb Farm with its spectacular spring tulip display and Raintree Nursery offering a huge stock of edible fruit bearing plants.

Hearty folks who braved the mountainous terrain to harvest the abundant forests settled Morton in the 1880's. Incorporated in 1913 and named for the then Vice President Levi P. Morton, the city developed into the business center for East Lewis County. Once the "Railroad Tie Capital of the World", the city continues today with a primarily timber based economy. This heritage is celebrated the second weekend in August with the "Loggers' Jubilee", which began as a friendly competition between locals and is now an international competition. The restoration of the 1910 Depot, last of its type, and rehabilitation of the abandoned 1935 Roxy Theatre for live productions as well as movies, are spectacular volunteer based projects.
